## **BRANDON KOWALLIS'S EQUIPMENT LIST**

- Camera: Canon 7D
- Lens: Canon EFS 18-135mm
- Flashes: Vivitar 285 HV (2), Yongnuo YN 660 Speedlight (1). As my Vivitar's die out I will probably be replacing them with the Yongnuo flashes since Vivitar no longer makes either the 285s or quality flashes.
- Radio Slaves: Vello FreeWave LR Wireless Flash Trigger (1), and Receivers (3).
- Tripod: Induro Alloy 8M AT014
- Tripod Head: Velbon PH-243 Compact Ballhead
- Cable Release: JJC TMA Timer LCD Remote Control
- Cases: LowPro Nova 1 AW for my camera and Pelican 1400 for my flashes, though I typically don't carry the Pelican underground and just shove my flashes in whosever pack is willing to carry them.
